## Scarborough Women's Medical Imaging Centre

### Midland-Ellesmere

X-RAY, ULTRASOUND, CARDIAC TESTING

### PATIENT PREPARATION INSTRUCTIONS

ULTRASOUND PREPARATIONS					
ABDOMEN  Avoid excess fats the night prior to the exam and solid foods 8 hours before the exam. Small quantities of clear fluids are permitted. (Any medication should be taken as required).					
PELVIC ONLY - FEMALE One hour prior to exam, drink 4 cups of water (total 32 oz). Do NOT empty bladder.					
HYSTEROSONOGRAM Please arrive 1 hour before examination to take necessary pre-procedure medication. Please have someone to accompany or drive you home after the procedure.					
ABDOMEN & PELVIC - SAME VISIT Avoid solid foods and excess fats 8 hours before the exam. Small quantities of clear fluids are permitted. One hour prior to the exam drink 4 cups of water (total 32 oz). Do NOT empty bladder.					
□ PREGNANCY					
One hour prior to the exam, drink the required amount of water: under 12 weeks 4 cups (32 oz)					
12-24 weeks 3 cups (24 oz)					
over 24 weeks 2 cups (16 oz)					
Adult Echocardiogram, Thyroid & Neck, Parathyroid, Salivary Glands, Cardiac Testing, Mammography, Vascular Ultrasound (Head, Neck & Extremities), BMD No preparation required.					

#### **APPOINTMENTS**

Please follow preparations carefully:

- We reserve the right to refuse and reschedule services due to circumstances such as arrival time, equipment downtime, patient/equipment weight capacities, etc.
- Please allow approx 45 minutes for each exam.
- Please arrive 20 minutes prior to your schedule appointment time in order to register and to complete any necessary paperwork.
- 48 hours cancellation is required for cancellations otherwise a \$50 charge will apply.
- Reports will be sent to the referring physician within 2-3 days.
   Urgent cases will be forwarded as soon as possible.
- Ministry of Health guidelines restrict the release of reports directly to patients.
